

**Aeromantenimiento S.A de C.V.
El Salvador International Airport, Access #6**

August 31, 2020

To whom it may concern,

It is my pleasure to recommend Jaime Arriola for the role of Learning Management System (LMS) Administrator. I have worked with Jaime Arriola for one and a half years as his Boss at Aeroman, where he used his excellent Web Development skills to deliver spectacular results. I am confident that Jaime Arriola exceptional skills, professional experience, and personal qualities will make him a powerful asset.

As Instruction Auxiliary and LMS Administrator, Jaime Arriola demonstrated his skills as a web developer. In particular, customizing the appearance of Aeroman's LMS using HTML, CSS and adding customized functions with JavaScript, he also proposed valuable strategies on how to deliver online courses. Moreover he trained our Training Department on how to use the Aeroman LMS Application.

Due to he's searching for a career change, we no longer have the pleasure of working with Jaime Arriola, but we undoubtedly feel thankful for his service at our company.

Jaime Arriola has my highest recommendation for this position. I have no doubt he will make a strong addition to your team.

Sincerely,

Juan Guzman

Technical Training Chief
