I've been doing Frontend development for more than 1 year and I enjoy delivering the best results on my job, learning new technologies and sharing what I know.

Work Experience

[Instruction Auxiliary - Aeroman](#)

Feb 2019 - Aug 2020

My tasks on this job were:

Provided IT support on:

- Aeroman's Learning Management System (LMS) as Main Administrator
- Airbus competence center and also on computer based training classrooms.

My achievements:

- Conceived and customized the user interface of the LMS by using HTML, CSS and JavaScript
- Coached to technical instructors and aircraft mechanics to deliver and take online courses
- Due to COVID-19 situation, I developed plans on how to deliver online training to people, so nearly 200 employees were trained online so Aeroman saved money and time on training people.

[Application Monitoring Analyst - Dataguard group](#)

Feb 2018 - Jan 2019

My tasks on this job were:

- Deploy application performance monitoring (APM) tools on Linux Servers.
- Assessed APM Tools to check performance on Java applications deployed in Aeroman application's servers.

My achievements:

- Conceived which tool was the best to analyze application's transaction through all the infrastructure components, in order to reduce response times, errors and downtimes of in-house development applications.
- Collaborated in the implementation of the Aeroman's Learning Management System (LMS)

[Technical Support, Programming and Electronics Teacher - Colegio Joya de Cerén](#)

Nov 2016 - Oct 2017

My tasks on this job were:

- Develop pedagogical material to teach electronics and programming
- Develop computer systems that promote an efficient use of human and technological resources

My achievements:

- My students approved the subjects that I taught them.
- Develop a Payroll System in Excel using Visual Basic for applications (Loan Management and payment receipt generation).

Skills:

React JS | Gatsby JS | Node JS | Javascript | ES6 | Git | Github | SaSS | HTML | CSS | MongoDB | Moodle

Education:

[University of El Salvador - Electrical Engineering Bachelor Degree](#)

2008-2015

Udemy

- [React - The Complete Guide \(incl Hooks, React Router, Redux\)](#)
- [React Front to Back](#)
- [Scrum Fundamentals Certified \(SFC\)](#)
